

SuperRange4

Public Safety 4.9GHz Modular Radio

The SuperRange4 is a powerful 4.9GHz mini-PCI card with FCC Part90Y modular approval. It achieves mask compliance at 400mW output power through an innovative amplifier design and also exhibits sensitivity and selectivity far beyond common 802.11 radios that have been simply shifted to operate in the 4.9GHz band. The SuperRange4 is compatible with Atheros Linux MADWIFI and has been proven in extreme temperature conditions.
