Know more

More flexible ways to unlock

You can simply swipe to unlock on the EZVIZ App, enter a code, or use the included card without turning the bag upside down to find a key.

Passcode   **Proximity Card**

A smart lock that rings as well

———

As a 2-in-1 smart lock and doorbell, the DL01CP triggers ringtones on the connected DL01 Pro to let you know when a visitor comes by.

You can also adjust the volume-even mute it completely if you prefer.

Lock the door with one click

———

After you close the door, you can click on the locking button on the DL01CP to double confirm that the door is well locked.

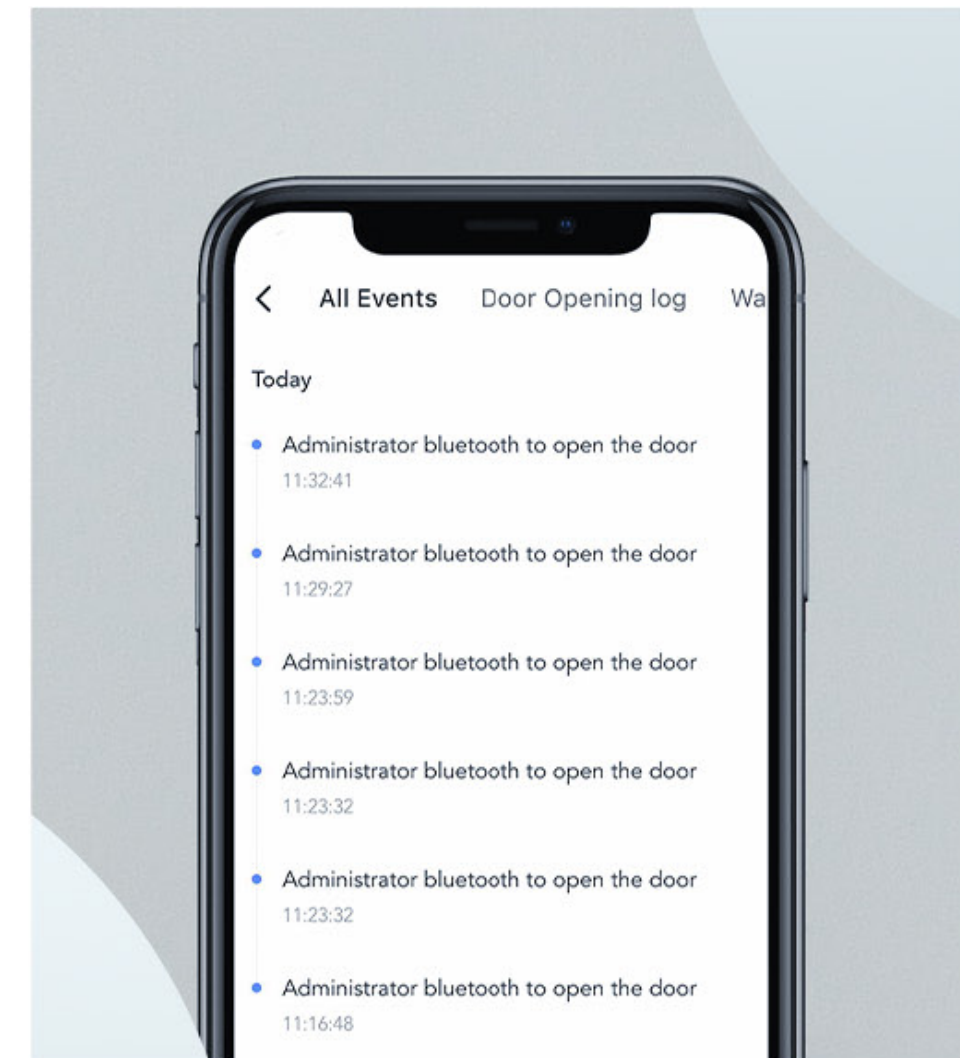

Easy to use but hard to tamper with

———

If the keypad is forcibly removed, it will immediately set off a piercing alarm.

Get connected with
the additional home gateway

When paired with the EZVIZ A3-R200, more internet-connected features are unlocked from the DL01 Pro and DL01CP duo. Now, you can give access to people you trust remotely, and know who comes or goes instantly via the EZVIZ App.
