

HUAWEI eKit App

Digital Platform for Distribution Services

For Distributors

Build e-commerce-like capabilities of transaction and digital operation

For End Users

Connect ICT products and digitalized requirements

Online Mall

- ▶ Various products with clear prices and specifications.
- ▶ Compare products online and obtain documents to select models faster.

Product Selection

- ▶ Select products as required, adjust the quantity, and quickly generate and download the selection list.

Simplified Deployment

- ▶ [SOHO deployment]: Quickly activate devices by scanning the QR code for online deployment and Wi-Fi deployment.
- ▶ [Data storage deployment]: Supports wizard-based deployment by scanning QR codes, facilitating device configuration and go-live.

Project O&M

- ▶ Multiple handovers can be performed after project deployment.
- ▶ Distributors can initiate project transfer and joint O&M to users. Users can initiate project hosting to distributors for easy project management.
