

G1040A-60WN

Hot-swap power supply for the CCR2004 – so you can replace the power supply without having to turn off or even restart the router. Zero downtime!

CCR2004-16G-2S+ comes with two hot-swap dual redundant power supplies. If one of them goes out of order at some point, the other one will take over. Then you can use this kit to replace the old power supply – and you don't even have to restart the router!
